

FIG. 1

A screenshot of a Netscape browser window from 1999. The address bar shows "http://www.ezremote.com". The page features a large banner at the top with the text "EZremote Download Center" and an image of a remote control. Below the banner is the Universal Electronics logo, which includes the text "UNIVERSAL ELECTRONICS" and "Putting You In Control of Technology". To the right of the logo is a circular emblem with "UEI TECHNOLOGY" and "Designed with". Further right is a small graphic of a remote control. At the bottom of the page, there is a copyright notice: "Copyright ©1999 Universal Electronics Inc. All rights reserved." The browser's status bar at the very bottom indicates "Document D one" and "Microsoft Word Document". The title bar of the browser window reads "EzRemote - Netscape".

Upgrading and Setup Instructions

52

- ### Before playing sound file
1. Turn the speakers' Volume to half of MAX and turn the TONE to MAX (if any). If you have small speakers, it's better to turn up the volume more.
 2. Press and hold the "DOWNLOAD" key on your remote. The LED will turn on.
- Note: The LCD and BACKLIGHT will be turned off during downloading.*
3. Place rear of the remote control on the face of speaker and try to keep it steady, keep the lower half of the remote in the center of the speaker, see the above illustration.
 4. Click  to play sound file.

2. While the sound files are playing:
- During download, Mosaic's LED should blink periodically if codes being received are valid.
 - *Note: If the LED is off or remains on steadily, the data is invalid. In that case, press the M(mute) key to stop the download and repeat this step.*
 - After completion of the download, Mosaic's LED turns off and an upgrade screen will appear on Mosaic that contains the upgraded device codes.
3. Completion of download:
- Carefully read the instructions to test the devices you have selected to see if the new downloaded codes work with your remote. Test the codes for each of the devices you have selected. If none of the codes work for a specific device or for all of the selected devices, repeat step 1 and try again. If after several attempts, none of the codes work for the device(s), see the ABOUT screen for support information.

FIG. 10

The image shows a universal remote control with a central LCD screen. The screen displays the time '9:24PM' and a menu with the following options: 'Skip Rew', 'Skip Fwd', 'Title', 'Subtitle', 'Angle', 'Audio', 'Step', 'Last Play', and '<TV DVD RCV>'. The remote has a variety of buttons, including 'SET', 'POWER', 'SURROUND', 'GUIDE', 'MENU', 'ENTER', 'CLEAR', 'ESCAPE', 'INPUT', 'SHIFT', 'SCAN', 'SLEEP', 'FAV', 'MUTE', 'LAST', 'VOL', 'CH', and a numeric keypad. At the bottom, there is an 'EJECT' button and a row of eight small circular buttons. Arrows point to the 'SKIP' buttons on the screen and the 'EJECT' button on the remote.
